AUSBIOTECH 2010  
Biotechnology Conference  
Melbourne

## **Creating Global Solutions**

Focusing on the solutions that biotechnology is developing to deliver a better future. In the areas of therapies, diagnostics, medical devices, agricultural, industrial or climate change, biotechnology is at the centre of finding better solutions and answers to global problems and challenges.

AusBiotech national conference is the premier biotechnology conference for Australia and the Asia-Pacific region.

A detailed conference program will include an extensive BioIndustry Exhibition and the increasingly popular Business Matching Program to demonstrate how AusBiotech has a reputation to be a flagship industry event.

The AusBiotech national conference attracts senior people from across the sector as well as investors and business development professionals. The participation of prominent biotech individuals, offers key networking and partnering opportunities, and provides insights and inspiration on the major trends affecting the industry.
