Supporters of open letter say 'Patent Amendment Bill' misses the point

March 2nd, 2011 by admin

An open letter with signatories including AusBiotech, Medicines Australia, Research Australia, the Walter and Eliza Hall Institute of Medical Research and Foursight has been addressed to members of the Australian Parliament, urging them to reject the 'Patent Amendment (Human Genes and Biological Materials) Bill 2010' as it misses the point on patient access and research exemption.
