FOR IMMEDIATE RELEASE

AusBiotech Chair wins industry leader award

AusBiotech Chair and Bionomics' CEO, Dr Deborah Rathjen, has been named the 'Bio Innovation SA Industry Leader' at the 2010 BioSA Bioscience Achievement Awards ceremony held on the first day of the AusBiotech Business Development workshop and Forum.

The award, which recognises contribution to the South Australian bioscience industry over a prolonged period, is awarded annually to a person who has made a significant impact to the growth and development of their company and/or to the South Australian bioscience industry.

The award was announced at the Bio Innovation SA Networking Forum, held as part of the program of the AusBiotech annual business development event, now in its fourth year.

More than 100 bioscience professionals gathered in Adelaide for the Forum, supported by Bio Innovation SA and the Government of South Australia. The event has brought together business development managers, commercialisation executives and bioscience specialists from Australia and overseas.

This year's Forum titled 'Evolve to Grow' follows the bioscience sector's strong recovery after the global financial difficulties of 2008–9.
