

NAMSA Announces Partnership with EIM Medical in Australia

Sydney, Australia, March 1, 2011 - NAMSA, a leading global CRO serving the medical device industry, recently named EIM Medical Consulting Pty Ltd. as its exclusive representative in Australia and New Zealand. Based in Sydney, the senior management at EIM Medical have provided technical, material and commercial support for life science companies in Australia for over 25 years.

"EIM is a respected and established member of the medical device community in this market and we are very excited about the growth opportunities our partnership creates," stated Dennis Nevins, Vice President of Global Sales and Marketing for NAMSA. "EIM's presence and experience will accelerate communication and enable us to better serve our clients in Australia and New Zealand," he added.

About EIM

EIM Medical is a specialist consultancy providing engineering and technical expertise to help its clients develop a variety of medical devices and components. EIM's extensive experience in the medical and precision industries is invaluable to companies which endeavour to successfully take their products to a world market.

About NAMSA

NAMSA is a global contract research organization providing a comprehensive range of services to prove efficacy, preclinical, and clinical safety of medical devices and combination products. For more than 40 years, NAMSA clients have utilized its testing and consulting services to bring safe and effective therapies to market.
