公司简介

ConvaTec是一家国际性的医疗产品和技术公司，在造口护理、伤口治疗、失禁与重症护理、输液设备等技术皆占有市场领先地位。ConvaTec的产品不但具有治疗效果，更有经济效益，不仅可预防感染、保护脆弱皮肤、改善医疗效果，并可降低整体费用。ConvaTec有超过8000名雇员，在8个国家拥有11家生产工厂，并在超过100个国家内营业。ConvaTec现由Nordic Capital和Avista Capital Partners共同拥有。

伤口治疗。ConvaTec的伤口治疗系列产品包括高端外伤敷料和护肤产品。这些敷料和产品可用于治疗急性和慢性伤口，包括由于外伤、烧伤、手术、糖尿病、静脉疾病、行动不便或其他因素造成的伤口。

造口护理。ConvaTec的系列产品为身上有人造开口（为排出体内废物而以手术方式创造的人造开口或“气孔”）的患者提供设备和配件。这些患者通常由于结直肠癌、炎性肠病、膀胱癌和其他因素而接受造口术。

失禁和重症护理。ConvaTec的失禁和重症护理（“CCC”）系列产品包括在重症监护病房和医院使用的设备和产品，亦有产品专门面向因脊髓损伤、多发性硬化症、脊柱裂或其他原因而引起尿失禁的患者。

关键技术或领先技术

伤口治疗：Hydrofiber® 技术：在 1996 年，ConvaTec 推出了世界上第一款应用了 Hydrofiber® 技术而制成的 AQUACEL® 敷料。自第一代水胶体到现在的专利技术 Hydrofiber®，伤口治疗产品部门不断的推出创新、现代化的敷料。

拥有 Hydrofiber 技术的敷料具有独特性质，可以锁住渗出液、贴合伤口床轮廓，并在伤口状况改变时生成粘性凝胶，便于识别。ConvaTec 敷料的这些功能特性使其成为医生极佳的选择，帮助提供患者更好的治疗效果与体验。

最初的 AQUACEL® 敷料现在已经发展出一整个系列的产品，这些敷料可以帮助保护和促进手术切口或烧伤等的伤口愈合。这为一系列创新现代的敷料提供了基础，同时也是 ConvaTec 全方位伤口治疗的核心。

造口护理：ConvaTec 模塑技术™——回弹和“高领式（自动膨胀）”是 ConvaTech 模塑技术® 皮肤屏障的两大特点，对防渗漏提供了更大的保障。该技术通过使用柔软、可弯曲、无需剪裁便可根据造口大小和形状进行调节的粘性材质来消除缝隙，从而有效的预防皮肤并发症。这一柔韧的材质轻轻贴附在人造口周围，形成一个安全并舒适的个性化适配。

ConvaTec 模塑技术经大量的临床实例证实，可防止渗漏和并保护造口周围肌肤。

COMPANY DETAILS

Company name: ConvaTec Pty Ltd

Key contact name: Jane Corkhill

Job title of key contact: Marketing Manager

Company website address: www.convatec.com.au

Company address: P.O. Box 63, Mulgrave Victoria 3170

Level 2, Building 5, Brandon Business Park, 530 Springvale Road, Brandon Park VIC 3150

The company is Unlisted.

ABOUT THE COMPANY

ConvaTec is a global medical products and technologies company, with leading market positions in ostomy care, wound therapeutics, continence and critical care, and infusion devices. Our products provide a range of clinical and economic benefits, including infection prevention, protection of at-risk skin, improved patient outcomes and reduced total cost of care. ConvaTec has over 8,000 employees, with 11 manufacturing sites in 8 countries, and we do business in more than 100 countries. ConvaTec is now owned by Nordic Capital and Avista Capital Partners.

Wound Therapeutics. Our Wound Therapeutics franchise includes advanced wound dressings and skin care products. These dressings and products are used for the management of acute and chronic wounds, such as those resulting from traumatic injury, burns, surgery, diabetes, venous disease, immobility and other factors.

Ostomy Care. Our Ostomy Care franchise includes devices and accessories for people with an ostomy (a surgically created opening or “stoma” where bodily waste is discharged), commonly resulting from colorectal cancer, inflammatory bowel disease, bladder cancer and other causes.

Continence and Critical Care. Our Continence and Critical Care (“CCC”) franchise includes devices and products used in intensive care units and hospital settings. The franchise also includes products for people with urinary continence issues related to spinal cord injuries, multiple sclerosis, spina bifida and other causes.

KEY OR LEAD TECHNOLOGY

Wound Therapeutics : Hydrofiber® Technology : In 1996, ConvaTec introduced AQUACEL® dressing, the world’s first dressing with Hydrofiber® Technology. The Wound Therapeutics division has continued to bring pioneering modern wound care dressings to the market, which began with the first Hydrocolloid and continues through to today’s patented Hydrofiber® Technology.

Dressings with Hydrofiber® Technology has the unique properties and ability to lock in exudate, contour to the wound bed and respond to changing wound conditions by forming a cohesive gel which can be easily seen. These functional properties make ConvaTec dressings an excellent solution for helping clinicians to enhance patient experience and outcomes.

Now, the original AQUACEL® dressing has grown into an entire family of dressings that help protect and heal wounds, including surgical incisions, burns and more; thus providing the foundation for a growing family of innovative modern wound dressings and is central to our comprehensive approach to wound management.

Ostomy Care : ConvaTec Mouldable Technology™ - Rebounding and “Turtlenecking” are the unique actions of ConvaTec’s Mouldable Technology® Skin Barrier that result in greater protection against leakage. The technology helps prevent skin complications because it eliminates gaps; soft, pliable adhesive rolls open to fit desired stoma size and shape, with no cutting necessary. The flexible adhesive gently hugs individual stoma contours creating a secure, snug personalised fit.

ConvaTec’s Mouldable Technology is supported by extensive clinical experience demonstrating its ability to prevent leaks and protect peristomal skin.
